1. What is the After School Enrichment Program?

The After School Enrichment Program is a series of classes offered by the San Ramon Parks & Community Services Department at the twelve elementary schools in San Ramon. The classes are conveniently located at the school sites after school. A wide range of classes are offered including sports, art and other enrichment courses.

Children who take after school programs over the course of their life time show consistently improved test scores in school, have better than average social skills, and tend to participate in less mischievous activities. After School Enrichment programs have a proven benefit for your children, your family, and the community that we all live in.

For a full list of classes visit our website at www.sanramon.ca.gov/afterschool.
