

## Proposed Location for the Public Art Piece at Athan Downs:

Benefits to the proposed location:

- The area is flat and installation, leveling, and securing of the piece and benches will be easier than on a slope
- There is easy access to the proposed site so that the sculpture can be lifted into place
- Piece will be accessible to all even those with mobility issues will be able to get close to the sculpture
- The piece is visible from the Parking Lot, Picnic Area, Bathrooms and Tennis Courts
- The location can easily be lit using the existing light pole from the tennis courts
- There is a surveillance camera pointed in the direction of the piece although the camera is not fully functional it could be repaired and will act as a deterrent for vandalism
- In the summer, the piece will be shaded and will add an attractive sitting area to the park
- Placing the sculpture on the east side provides an artistic element on both the east and west sides of the park

Proposed  
Location for  
Sculpture &  
Benches

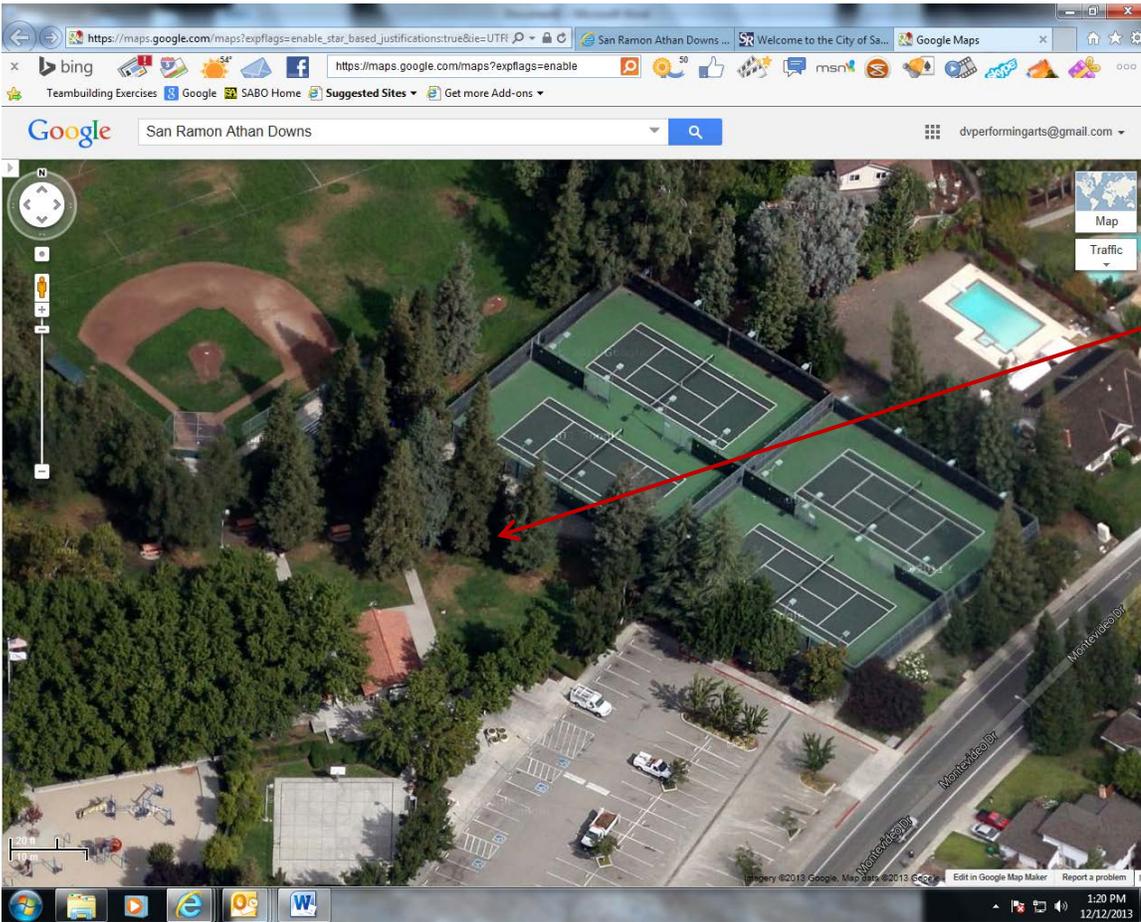

Proposed Location for Sculpture & Benches
