NOTICE TO APPLICANTS FOR BUSINESS LICENSES AND COMMERCIAL BUILDING PERMITS:

Under federal and state law, compliance with disability access laws is a serious and significant responsibility that applies to all California building owners and tenants with buildings open to the public.

FEDERAL AND STATE LEGAL REQUIREMENTS ON ACCESSIBILITY FOR INDIVIDUALS WITH DISABILITIES

AMERICANS WITH DISABILITIES ACT OF 1990 (ADA) – The ADA is a federal civil rights law that prohibits discrimination against individuals with disabilities, and requires all public accommodations and commercial facilities to be accessible to individuals with disabilities. Learn more at www.ada.gov

UNRUH CIVIL RIGHTS ACT – The Unruh Civil Rights Act is a state statute providing that all persons no matter their disability are entitled to full and equal accommodations, advantages, facilities, privileges or services in all business establishments of every kind.
http://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=CIV§ionNum=51

CALIFORNIA BUILDING CODE (CBC) – The CBC contains the construction-related accessibility provisions that are the standards for compliant construction. A facility’s compliance is based on the version of the CBC in place at the time of construction or alteration. Learn more at www.bsc.ca.gov

You may obtain information about your legal obligations and how to comply with disability access laws at the following agencies:

**IT IS IMPORTANT THAT YOU CONSULT A CERTIFIED ACCESS SPECIALIST TO PROTECT YOUR BUSINESS AND YOUR INVESTMENT
 (SEE REVERSE FOR MORE INFORMATION)**

CERTIFIED ACCESS SPECIALIST INSPECTION SERVICES

Compliance with state and federal construction-related accessibility standards ensures that public places are accessible and available to individuals with disabilities. Whether your business is moving into a newly constructed facility or you are planning an alteration to your current facility, by engaging the services of a Certified Access Specialist (CASp) early in this process you will benefit from the advantages of compliance and under the Construction-Related Accessibility Standards Compliance Act (CRASCA, Civil Code 55.51.55.545), also benefit from legal protections.

Although your new facility may have already been permitted and approved by the building department, it is important to obtain CASp inspection services after your move-in because unintended access barriers and violations can be created, for example, placing your furniture and equipment in areas required to be maintained clear of obstructions. For planned alterations, a CASp can provide plan review of your improvement plans and an access compliance evaluation of the public accommodation areas of your facility that may not be part of the alteration.

A CASp is a professional who has been certified by the State of California to have specialized knowledge regarding the applicability of accessibility standards. CASp inspection reports prepared according to CRASCA entitle business and facility owners to specific legal benefits, in the event that a construction –related accessibility claim is filed against them.

To find a CASp, visit www.apps2dgs.ca.gov/DSA/casp/casp_certified_list.aspx
