The City of San Ramon developed a sports field maintenance program in order to maintain high-quality, safe playing fields in San Ramon as demand for field use continues to increase. The goal is to improve the sustainability and overall health of the sports fields, manage scheduled use and unstaffed periods, implement effective maintenance strategies to help counter high use of the fields and preserve the quality of the fields and valuable community assets for everyone.

The City’s sports fields are maintained by parks maintenance staff with support from a specialized sports field crew. The maintenance plan on the sports fields includes regular aeration, fertilization, and pest control measures which provide for healthier turf. This is meticulously monitored and adjusted as needed. Drought water management and conservation strategies are in place to implement and overall, the City has achieved over 25% water reduction.

The City of San Ramon schedules over 35,000 hours of use on the sports fields annually by the 8 local San Ramon non-profit youth sports leagues. The City of San Ramon is very proud of the relationship it has built with sports field users and recognizes that organizations like these are providing vital services to create a well-rounded healthy community.

Don’t “Leaf” it in the Street

Keeping San Ramon’s streets clean is a big job for the street sweepers, especially in the fall when trees drop their leaves. Residential streets are swept twice a week to keep our streets clean and storm drain clear and prevent the accumulation of pavement. You can find your scheduled street sweeping days on the City website: http://www.sanramon.ca.gov/2400/Sweep-Schedule. Each street sweeping day is marked needed during the fall season in

With high leaf accumulation, please help the street sweepers by not parking in the street on your scheduled sweeping days and by not putting leaves from your yard into the street. Leaves that fall on your property should be placed into your green waste cart for weekly collection. You can receive a second green waste cart at no additional charge by contacting Waste Management at 925-837-3356. Leaves also make great compost. Visit http://www.sanramon.ca.gov/6078 for more information. Additional City of San Ramon granular leaf collection and drop off locations are marked needed during the fall season in

When trees, tree roots, and bushes are pipeline in the event of an emergency pipelines to be certain that firefighters also looking at the area above and safely, in every community we are working every day to ensure that the protective coating of underground cables or pipes which can threaten safety because they block emergency access for firefighters and can prevent our crews from performing important safety work. Tree roots also pose a safety risk because they can damage the protective coating of underground cables or pipes. When they get too close to a gas pipeline, they create a safety hazard for those who live in the area or travel nearby.

If you have any questions about this project, please contact our Sr. Customer Impact Specialist, Greg Gillis, at 925-973-7284 or by email at ggillis@pgandeegas.com.

PG&E’s vegetation crew is scheduled to begin going door to door and talking about the importance of clearing weeds located near the City of San Ramon Valley Boulevard, Old Ranch Road, and Dougherty Road. Our crews will be replacing trees or bushes located within 10 feet of a gas pipeline, they can threaten safety because they block emergency access for firefighters and can prevent our crews from performing important safety work. Tree roots also pose a safety risk because they can damage the protective coating of underground cables or pipes. When they get too close to a gas pipeline, they create a safety hazard for those who live in the area or travel nearby.

If you have any questions about this project, please contact our Sr. Customer Impact Specialist, Greg Gillis, at 925-973-7284 or by email at ggillis@pgandeegas.com.

When trees, tree roots, and bushes are too close to pipelines to be certain that firefighters can access for fires, our crews from performing important safety work. Tree roots also pose a safety risk because they can damage the protective coating of underground pipelines—leading to corrosion and failure. PG&E's vegetation crew is scheduled to begin greenway work at San Ramon Valley Boulevard, Old Bollinger Road, and Dougherty Road. Our crews will be replacing any underground pipes that are too close to the pipeline and rerouting the area.
**Interested in helping catch criminals in your City?**

**The San Ramon Police Department** is encouraging residents and businesses who have surveillance cameras to register their systems with the Police Department. Registration is completely voluntary and the San Ramon Police Department will not have direct access to your surveillance footage. We are looking for businesses and residential homes that are equipped with surveillance cameras and owners that are willing to assist us in apprehending those involved in criminal activity. Again, the San Ramon Police Department will not have direct access to your surveillance footage, so your privacy is maintained. If you have any questions about this program, please email San Ramon Police Lieutenant Tom Calvert at tom.calvert@sanramon.ca.gov.

**What is my flood risk?**

Residents should be aware of their flood risk…Federal Emergency Management Agency (FEMA) divides flood risk into the following categories, where a flood has a 1% chance or greater of occurring in any given year:

- **A - Floodplain**
- **B - Post-Floodplain**
- **C - Floodplain Management**
- **D - Low Risk**
- **E - Unknown**
- **F - Hardened**
- **G - No Risk**

To find out if you are located in a flood zone, it is encouraged that you obtain flood insurance if your property is located in an area of risk. The insurance agent should be incorporated into your insurance quotes. For more information about the CRS Program, flood risk, flood insurance, or flood zone determinations, visit FEMA’s website at www.floodsmart.gov or call the San Ramon Police Department at (925) 279-1200. For more information regarding these commute incentives, please contact the Transportation Division at 925-973-2650 or visit www.sanramon.ca.gov/transp/tdm.htm.
