Project Planner: Cindy Yee, Associate Planner

After hearing a presentation from the staff and applicant on the Architectural Review application, the Board provided the following recommendations to the Applicant and Staff:

- 1. The Board supported a 3-wire and metal post fence design that would be used around the mitigation areas. The Board suggested the post be cor-ten or black color.*

2. *It was recommended that stone-faced pilasters be used at fence-type transitions in locations that can be seen by the public.*
3. *The Board recommended that boulders be placed intermittently within the stone wall at the entrance on Deerwood Road to add more detail and interest to the wall and to compliment the boulders used within the water feature.*
4. *Evaluate opportunities to add or extend the low stone wall feature on other portions of Faria Preserve Parkway such as within the neighborhood entryways adjacent to the round-a-bouts.*
5. *The Board recommended that the 6 foot high partial view fence be replaced with either a 6 foot high wire mesh view fence or by replacing the glass portion depicted on the partial view fence with wire mesh.*
6. *Use 6 x 6 posts and add a trim cap on the good neighbor fencing, making sure that there is consistent color between the posts and boards and that fence is lapped or louvered.*
7. *Use non-galvanized street light poles painted green or black as deemed acceptable to City staff.*
8. *Reduce the number of street lights at neighborhood entry points as currently shown on sheet L5.*
9. *Detail on the plans the lighting at the community pool parking lot and the use of bollard lighting on the HOA-maintained pathways that will connect the neighborhood to the public streets.*
10. *Correct the Deerwood Road entry sheet (L13) to depict that there will be no sidewalk on the East side of Faria Preserve Parkway. Evaluate opportunity to add a monolith feature instead of the portal at this entrance.*
