Date: Sept 14, 2015
Time: 3:11 pm
Location: Davona Drive near Northland Ave

DETAILS

On Sept 14th 2015, the San Ramon Police began investigating a reported attempted abduction of a 13 year old female juvenile. During the preliminary investigation the incident appeared to be a legitimate crime. We put forth a heavy presence of officers in the area to protect our community and to attempt to identify the suspect.

During the follow-up investigation, and additional interviews of the alleged victim, some discrepancies were revealed. Eventually, we learned that the juvenile fabricated an incident that never occurred.

The San Ramon Police Department takes reports of criminal activity very seriously. A reported crime against a child is a top priority. We have to investigate these situations fully in order to protect our children and community. It's unfortunate that a scare in the community was raised by this fabricated incident. The San Ramon PD would like to thank those in the community and in law enforcement for information provided in an effort to assist in the investigation.
