Size of the Unit(s): (width) _____ (height) _____ (length) _____

Number of Units to be used: _____

Please be advised that the maximum allowable size of a portable outdoor storage unit is 8 feet in width by 8 feet 6 inches in height and the total volume cannot exceed 1,050 cubic feet. For example, you may use one unit that is 8-ft W x 8-ft H x 16-ft L (1,024 cu. ft.) or three units that are 8-ft W x 7-ft H x 5-ft L (280 cu. ft. x 3 = 840 cu. ft.). The portable outdoor storage unit(s) is allowed for up to 30 consecutive days in a 12-month period and shall be placed in a driveway, on paved surface, or in the rear yard, if an alley access exists at the rear of the site. The Portable Outdoor Storage Unit needs to be located at least 1 foot from the front property line and 3 feet from the side and rear property lines. The Zoning Administrator may authorize an extension up to 90 consecutive days as long as a building permit has been obtained or upon the findings that an unusual circumstance exists. (Ordinance No. 402 adopted on 2.26.08)
