

CONSTRUCTION NOTICE

SAN RAMON VALLEY BLVD AT FARIA PRESERVE PKWY AND DEERWOOD RD INTERSECTIONS

Dear Property Owner and Business Owner,

This is a courtesy notice to inform you of construction work on San Ramon Valley Boulevard (SRVB) at the intersections of Faria Preserve Parkway and Deerwood Road. The City has issued permits and has approved both daytime and nighttime work hours. The work includes demolition, roadway and traffic signal improvements, and roadway restoration at the following locations:

- installation of new traffic signals at the intersection of Faria Preserve Parkway and SRVB
- modifications of existing medians at Faria Preserve Parkway/SRVB and Deerwood/SRVB thereby permanently restricting some left turn movements within the project area
- modification of existing traffic signals at the Deerwood Road and SRVB
- slurry sealing/re-stripping SRVB in order to accommodate increased traffic flow.

This construction work will last approximately 8 months, weather permitting, and is expected to start mid-July 2020. The construction requires traffic control along San Ramon Valley Boulevard and Deerwood Rd. to allow construction workers to safely access the work. Access to your business/property will be available at all times however, this work will require temporarily removing left turn lanes which will result in detours and restricting access to the center left turn lane within the construction zone. All work will be observed by the City of San Ramon Public Works Department.

Traffic patterns will be reviewed during the closure to determine where signs are most effective and adjustments will be made in response to any observed issues.

When completed this project shall help to minimize disruption to through traffic, allow pedestrians to cross the roadway in a more protected environment, and provide for vehicles to make a protected left turn onto Faria Preserve Parkway.
