

NOTICE OF CONSTRUCTION

MCI/VERIZON FIBER CABLE INSTALLATION PROJECT

**SOUTH MONARCH ROAD, MOUNTAIN ASH LANE, BASSWOOD DRIVE, STONELEAF ROAD,
AND SOUTH WEDGEWOOD ROAD**

Planned Construction Period: August to September 2020

Staff issued an Encroachment Permit to MCI/Verizon's contractor, Golden State Utility Company (GSUC), for the installation of approximately 3,200 feet of new fiber cable along South Monarch Road, Mountain Ash Lane, Basswood Drive, Stoneleaf Road, and South Wedgewood Road. This project is necessary to maintain the MCI/Verizon fiber cable system, as well as upgrade the services for digital cable television, digital telephone, and high-speed data. Details of the Permit issued are as follows:

- Project scope: potholing of existing utilities; 12 4'x4' bore pits; approximately 3,200 feet of directional bore; and placement of approximately 3,200 feet of conduit for fiber installation.
- Limits of work: start at existing vault on the west side of South Monarch Road approximately 50 feet north of Mountain Ash Lane, continue south behind the curb along the south side of Mountain Ash Lane to Basswood Drive, continue southwest behind the curb along the east and south side of Basswood Drive to Stoneleaf Road, continue south behind the curb on the west side of Stoneleaf Road to South Wedgewood Road, continue west behind the curb along the north side of South Wedgewood Road, and end at an existing cabinet behind the sidewalk by the Bark and Ride Lot approximately 200 feet west of Stoneleaf Road, as shown on Exhibit A.
- Work schedule – August 3, 2020 to September 2020
