

HOW TO USE AN RRFB

(Rectangular Rapid Flashing Beacon)

Pedestrians and Bicyclists

Press the button to activate the RRFB signals; the lights will begin to flash indicating to motorists a pedestrian is ready to cross.

Pedestrians

1. Make eye contact with motorists to be sure traffic is yielding before entering the crosswalk.
2. Walk defensively, scanning both directions to be sure motorists see you.
3. Always scan the road while crossing making sure all vehicles have stopped.

Bicyclists

1. Obey all traffic signs and signals.
2. When using the crosswalk, follow the pedestrian rules.
3. When using the travel lane, ride in the direction of traffic and always yield to pedestrians.

HOW TO USE AN RRFB

(Rectangular Rapid Flashing Beacon)

Motorists

Always stop for pedestrians and bicyclists at crosswalks.

1. Anticipate pedestrians crossing when approaching an RRFB.
2. Never pass another vehicle that has stopped or is slowing down at a crosswalk.
3. Always stop before the stop bar or “stop bar” pavement markings.
4. Never stop in or block a crosswalk.
5. Always stop for pedestrians entering or in a crosswalk.
6. Remain stopped for pedestrians regardless of activated RRFBs.
7. Wait for pedestrians to completely clear the crosswalk on your side of the road, and for anyone crossing into your lanes from the other direction.

RRFBs use an irregular flash pattern that is similar to emergency flashers on police vehicles.
